Art Unit: 1614

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 23-58 are rejected under 35 U.S.C. 103(a) as being unpatentable over the <sup>S</sup>Duguira et al. reference including the original article present by applicant in Paper No. 15 and the Liversidge et al. patent of record for the reasons fully set forth in Paper No. 13, page 2.

Applicant's remarks are noted but the Suguira et al. reference clearly states that "repeated injections (i.p.) of thalidomide has a moderate inhibitory effect on Lewis bladders carcinoma" (page 59, lines 9 and 10 after Table I).

Moderate inhibition is defined as "tumor growth from  $\frac{1}{4}$  to  $\frac{1}{2}$  of the average diameter of the controls" (page 58, lines 20 and 21). Applicant's remarks of using 300 mg/kg/day are noted but no testing is shown. Moreover, the claims are directed to "tumors sensitive to thalidomide" which would include the prior art bladder carcinoma which is a "solid tumor" (page 58, line 17 with regard to the metastasis tumors claims, they are directed to an "animal having at least one primary tumor" (claim 41) which is clearly set forth in the prior art.

A showing directed to the 300 mg/kg/ day <sup>/</sup>as the prior art 1000 mg/kg/day would be in order.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

Art Unit: 1614

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
